BEAUTY CIRCUIT

FACIALS + BODY

Highly sophisticated facial and body optimizations, natural and non-invasive techniques, products, and solutions that delivers optimal skin health, function, and appearance.

DR. LARA DEVGAN

World renowned plastic surgeon Dr. Lara Devgan is best known for her use of modern technology to achieve subtle facial optimizations-- using everything from lasers to injectables to facelift surgery. Her medical-grade product line is formulated to improve visible tissue quality, boost collagen, and enhance the evenness of the skin.

THE GOLD COLLAGEN FACIAL BY DR. LARA DEVGAN

60 min | \$350

Add-ons include:

Retinol Micropeel | Lip Plumping

This is a hydrating, brightening, pore refining facial with steaming, lymphatic massage, and gold collagen mask application for tissue support. Dr. Devgan Microdermabrasion Scrub is used for a deep tissue lymphatic massage and microdermabrasion exfoliation, to rid the face of impurities and leave it looking smoother and softer. Mixed molecular weight, niacinamide-fortified hyaluronic serum and vitamin CBE ferulic are massaged into the tissues to improve barrier protection, hydration, collagen support, and brightening. The power of Peptides, Resveratrol, and Vitamin E are used to improve the visible appearance of fine lines.

AUGUSTINUS BADER

Augustinus Bader is a premium, science-led skincare line that launched in 2018 and is backed by the highest caliber of applied science in the industry. The product addresses everything from the appearance of fine lines and wrinkles to redness and elasticity.

THE METHOD BY AUGUSTINUS BADER

60 min | \$325

The Method uses Augustinus Bader's groundbreaking technology to create a one-of-a-kind, highly sophisticated facial experience. The visible results are powered by TFC8®, a smart signaling technology that supports the skin's innate biological wisdom to renew and regenerate. Incorporating a special fascia massage, The Method promotes a sequence of personalized regenerative processes for skin hydration, firmness, evenness, and protection against environmental aggressors.

BIOLOGIQUE RECHERCHE

Biologique Recherche - the foundation of the Biologique Recherche methodology's reputation for efficacy rests on the combination of a clinical approach to personalized cosmetic treatment; pure, concentrated, almost raw products; complex formulas; and rigorous original treatments.

EQUINOX CUSTOMIZED FACIAL

60 MIN | \$275

90 MIN | \$360

Each facial is highly customized utilizing unique formulas that are rich in botanicals, marine and biotechnical extracts. These formulas are combined with specific massage gestures to achieve immediate and long lasting results.

REMODELING LIFT FACIAL

60 MIN | \$345

90 MIN | \$425

Unparalleled technology through a combination of 3 types of electrical currents to improve the absorption of the active ingredients, reshapes and tones, and revitalize the epidermis. The results are visibly lifted and toned skin, wider-looking eyes, more prominent cheek bones, softer wrinkles and better defined facial contour.

MICRO-NEEDLING FACIAL

60 MIN | \$345

Micro-Puncture Lab is a machine consisting of an oscillating needle handpiece with a single use multi-needle head of 1cm for precise and perfectly controlled results. The technique is nearly painless and is based on micro-stimulations to remodel the deeper dermal layer for increased regeneration, resurfacing and firmness. The obtained effects are the stimulation of intra-dermal collagen production and increase penetration of specialty serums. This procedure may be done full face or on a targeted area when combined with a full facial.

SECOND PEAU FACIAL

60 MIN | \$345

The Seconde Peau treatment accelerates cell renewal and optimizes healing for a visible and immediate tightening effect. It increases cohesion, firmness, and density of the skin. Seconde Peau is an electrospun mask strip made up of 80% Hyaluronic Acid of medical origin. This revolutionary facial utilizes a form of electrospun pharmaceutical grade hyaluronic acid, known for its incredible ability to plump and hydrate the skin, to visibly treat wrinkles and provide a genuine alternative to conventional fillers.

THE ULTIMATE ANTIAGING + LIFTING FACIAL

120 MIN | \$625

A signature facial by Biologique Recherche only available at Equinox Hotel, New York. Get red-carpet ready and take years off your face with this customized tech facial. Treatment includes: the remodeling face machine, micro-puncture, second peau hyaluronic treatment and a collagen finishing mask. The facial addresses loss of volume, diminishes facial hollows and boosts cellular regeneration.

MENS HIGH PERFORMANCE FACIAL

60 MIN | \$275

Tailored specifically for men, this facial will renew and detoxify the skin. A deep cleanse, enzyme exfoliation, and an extended facial massage will meet the demands every man's skincare needs.

ENHANCE YOUR TREATMENT

NECK DEFINITION

20 MIN | \$75

"Tech neck" is a reality of today's lifestyle and yet despite mounting evidence, for most of us our beauty routine stops at the chin. Add this treatment created specifically for the neck and décolleté that features high concentrations of active ingredients to minimize lines and sculpt the chin and jawline and even the skin tone.

TONE IT UP

20 MIN | \$65

An intensive lifting and firming massage using the Myo technique to activate each facial muscle.

SUPER SET YOUR TREATMENT

INHIBIT V-NECK MASK

BODY PERFECTORS

ILLUMINATING BODY TREATMENT

90 MIN | \$350
120 MIN | \$460

Dive into this indulging treatment and reveal baby soft skin with the exfoliating marvel of Dead Sea salt crystals and rice powder. The treatment includes LED light therapy to stimulate collagen for a full body rejuvenation and is completed with a customized aromatherapy massage leaving your mind, body, and skin restored and refreshed.

RESET + RECHARGE

60 MIN | \$250
90 MIN | \$350

We start this full body experience by scrubbing you head to toe, resurfacing and smoothing your skin from all of life's daily stressors. You then relax! Using LED Light to calm inflammation, build collagen, and speed the healing of the body. This treatment works for resurfacing, polishing, and improving the appearance of cellulite.

MICROJET STREAMING + INFUSION TECHNOLOGY

Powerful 3-phase treatment of lymphatic drainage, exfoliation, and serums targeted to penetrate deep into the dermal layers to restore vital radiance via this cutting-edge technology.

NUTRITION CIRCUIT

INNER BODY

Essential nutrients, targeted antioxidants, superfoods, adaptogens promoting peak performance and regenerative benefits through IV Therapy, antioxidant hand-scanner to test levels and a curated selection of superfoods, adaptogenic drinks and nutrient dense meals

ANTIOXIDANT HAND SCANNER

The Biophotonic Scanner accurately and quickly measures our body's plant-based antioxidant defenses. It is as accurate and more stable in readings than a blood draw, quicker, less invasive and less expensive. Doctor Oz called it "the nutritional lie detector." Higher scores are better.

Few of us eat the recommended amount of fresh fruits and vegetables that provide nutrients, especially antioxidants, which defend the body against free radicals, charged particles that age us and cause disease.

Scan for Antioxidant Levels | \$35

We recommend patients get a 30-second, non-invasive scan of your body's carotenoid levels, the plantbased antioxidants, which is a root cause of why we age.

Free Radicals

Charged particles created by stress, pollution, and our own metabolism. Antioxidants neutralize free radicals, some repair damage to the DNA. We measure skin carotenoid levels, the plantbased antioxidants. We raise levels and use gene expression science to restore aging defense mechanisms to younger function.

The amount of antioxidants that you maintain in your body is directly proportional to how long you will live.

-Richard Cutler M.D Director Anti-Aging Research, National Insitute of Health

SANDWICHES

Bread is not the enemy. Not if it's minimally processed and nutrient-dense. Each one is a good source of energy, with plenty of fiber which can regulate appetite. And be sure to eat the crusts, since they contain eight times as much pronyl-lysine (a disease-fighting antioxidant) as the bread itself, due to reactions from baking at high temperatures.
